

Rome Workshop on Experimental Psychopathology 2014

Rome, February 28th – March 1st 2014

The Workshop is the first international meeting completely focused on Experimental Psychopathology (EP), and it differs from larger congresses in so far as there is a relatively small number of speakers without concurrent talks. In addition to the individual talks, there will be poster sessions for students, post-docs and young researchers to present their work. The ultimate goal of the Workshop is to promote the scientific debate on EP, and the development of international networks among clinical and basic researchers.

The Workshop keynote speakers are:

David Clark (University of Oxford, UK)
Graham Davey (University of Sussex, UK)
Reuven Dar (Tel Aviv University, Israel)
Ernst Koster (Ghent University, Belgium)
Francesco Mancini (Scuola di Psicoterapia Cognitiva, Roma)

Registration for attendance, limited to around 150 participants, is now open. Before the **15th of December 2013**, participation fee is €120 for Academics and Professionals, and €50 for under- and post-graduate Students. Participation is free for SITCC associates.

Abstracts for oral presentations and posters can be submitted until the **30th of November 2013**.

To have full information, to register, and submit your work, please go to: www.rwep2014.org

Organizing Committee
