

# Rome Workshop on Experimental Psychopathology 2015

Rome, March 20th –21st, 2015

The Workshop is the unique international meeting completely focused on Experimental Psychopathology (EP), and it differs from larger congresses in so far as there is a relatively small number of speakers without concurrent talks. In addition to the individual talks, there will be poster sessions for students, post-docs and young researchers to present their work. The ultimate goal of the Workshop is to promote the scientific debate on EP, and the development of international networks among clinical and basic researchers.

## Invited keynote speakers

Richard Bentall (University of Liverpool, UK)  
Nira Liberman (Tel Aviv University, Israel)  
Richard J. McNally (Harvard University, USA)  
Marcel van den Hout (University of Utrecht, Netherlands)
